

Subcommittee on Long-Term Regional Planning Processes and Business Modeling

Draft Climate Adaptation Master Plan for Water Policy Framework

Item 3c January 29, 2025

CAMP4W Draft Policy Framework Discussion

Subject

Discuss the development of a Climate Adaptation Policy Framework for Board Approval in April 2025.

Purpose

Seek input from the CAMP4W Task Force on the Climate Adaptation Policy Framework aimed to systemically align Metropolitan with CAMP4W priorities.

Next Steps

In February, staff will include the Climate Adaptation Policy Framework as a component of the Draft CAMP4W Implementation Strategy. Member agency comments on the Policy Framework/Draft Working Memorandum #10 are requested by Monday, February 10, 2025.

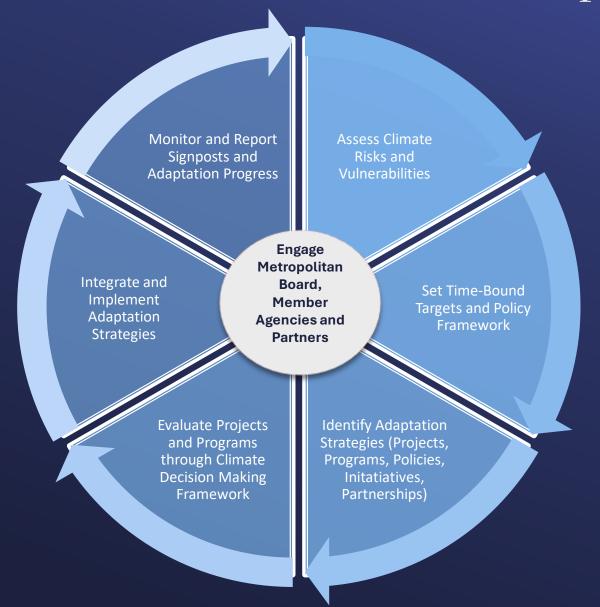

CAMP4W Task Force

CAMP4W Task Force Charter Joint Task Force of Board Members and Member Agencies has been chartered to produce a regional plan (CAMP4W) that will develop and establish a master plan that includes:

- Climate and Growth Scenarios
- Time-bound Targets
- Framework for Climate Decision-Making and Reporting
- Policies, Initiatives, and Partnerships
- Business Models and Funding Strategies

CAMP4W is Iterative and Adaptive

- Adaptive management approach to systemically address the impacts of climate change
- Stepwise approach to ensure alignment and integration of climate, resource and financial planning
- Continuous engagement with Board,
 member agencies, and interested parties
- Monitoring and reporting on real-world conditions, updated climate projections, and implementation progress informs decision-making
- ➤ This discussion focuses on overall policy direction for developing and integrating climate adaptation across the agency

CAMP4W is Iterative and Adaptive

- Adaptive management approach to systemically address the impacts of climate change
- Stepwise approach to ensure alignment and integration of climate, resource and financial planning
- Continuous engagement with Board, member agencies, and interested parties
- Monitoring and reporting on real-world conditions, updated climate projections, and implementation progress informs decision-making
- ➤ This discussion focuses on overall policy direction for developing and integrating climate adaptation across the agency

Policy Framework Objectives

A Policy Framework to systemically integrate Climate Adaptation

- 1. Systemically integrate climate adaptation to increase climate preparedness and internal awareness and improve climate hazard response
- 2. Update existing and set new policies to strengthen the role of <u>adaptive management</u> and <u>climate</u> adaptation in Metropolitan's initiatives and decision making
- 3. Underscore the value of the Metropolitan Member Agency cooperative and other partnerships in achieving regional climate resilience

A Policy Framework to systemically integrate Climate

Adaptation

Existing Climate-Related Policies

- I. Board Legislative Priorities reviewed annually to address emerging and applicable issues related to climate action and adaptation
- 2. Existing Board Adopted Policy Principles include limited climate-specific policies:
 - > 2022 Bay-Delta Policy Framework addresses climate risks and resilience in Bay-Delta
 - > 2016 Policy on incorporating climate adaptation into Watershed Management Plans
 - > 2002 Policy on incorporating climate into water resources planning

Climate Adaptation Policy Framework Structure

CAMP4W Themes				
Reliability	Resilience	Financial Sustainability	Affordability	Equity
Board Policy Objectives (Overarching Direction)				
Integrate climate adaptation into water supply reliability	Achieve climate resilience of resources and infrastructure	Account for financial risks associated with climate change	Consider cost impacts of climate adaptation	Include affected communities in climate adaptation
Initiatives (Specific Implementation Actions)				
Policies, Programs, Actions, Studies, Research, Partnerships etc. to implement Climate Adaptation Policy Objectives				

Themes	Overarching Policy Objectives
Reliability	Metropolitan will consider climate risks and integrate climate adaptation strategies into water supply programs, policies, planning, and operations
Resilience	Metropolitan will integrate climate risk and vulnerability assessments for climate-related hazards including drought, extreme heat and precipitation, sea level rise, flooding, and wildfire using the best available climate science and climate change information into planning, implementation and operations
Financial Sustainability	Metropolitan will reduce short-term and long-term climate-related financial risks through its reserve policy, efforts to increase fixed revenues, active monitoring and managing of financial conditions, and by maintaining flexible financing alternatives
Affordability	➤ Metropolitan will continue to support retail user affordability efforts by pursuing cost-effective investments, new non-rate dependent revenue sources and other financial tools that support our mission to provide regional wholesale water service in the most economically responsible way
Equity	Metropolitan will engage with the diverse communities we serve to listen, communicate transparently, and co-create solutions for greater equity in climate adaptation planning and implementation

Themes	Policy Objective
Reliability	Metropolitan will consider climate risks and integrate climate adaptation strategies into water supply programs, policies, planning, and operations

Example Initiatives:

Incentives for Member Agencies to increase regional water resilience

Watershed resilience projects to strengthen imported supplies

Programs to actualize benefits from wet weather years

Themes	Policy Objective	
Resilience	Metropolitan will integrate climate risk and vulnerability assessments for climate-related hazards including drought, extreme heat and precipitation, sea level rise, flooding, and wildfire using the best available climate science and climate change information into planning, implementation and operations	

Example Initiatives:

Establish infrastructure performance criteria for resilience

Assess power system vulnerabilities

Review workforce safety measures for climate risks

Update fire management plans for critical facilities

Themes	Policy Objective
Financial	➤ Metropolitan will reduce short-term and long-term climate-related financial risks through its reserve policy, efforts to increase fixed revenues, active monitoring and
C 4 . : . : : 4	managing of financial conditions, and by maintaining flexible financing alternatives

Example Initiatives:

Track financial implications of climate-induced expenses

Consider updates to reserve policy

Themes	Policy Objective	
Affordability	➤ Metropolitan will continue to support retail user affordability efforts by pursuing cost-effective investments, new non-rate dependent revenue sources and other financial tools that support our mission to provide regional wholesale waters service in the most economically responsible way	

Example Initiatives:

Identify new partnerships, grants and revenue sources for climate adaptation

Enhance water conservation incentives to reduce financial impacts

Work with Member Agencies to identify funds for statewide low-income rate assistance

Themes	Policy Objective
Equity	Metropolitan will engage with the diverse communities we serve to listen, communicate transparently, and co-create solutions for greater equity in climate adaptation planning and implementation

Example Initiatives:

Develop environmental justice and community benefits policy

Develop community engagement standards

Partner with CBOs to advance water efficiency programs

2025 Ql CAMP4W Activities

- ➤ Jan. 29, 2025: CAMP4W Task Force
 - Discuss 2024 Annual Report
 - Climate Adaptation Policy Framework
 - Documents:
 - > Draft 2024 Annual Report
 - Final Working Memos #7 and #8
 - Draft Working Memo #10
- Feb. 26, 2025: CAMP4W Task Force
 - Seek Board Input on Draft Master Plan Implementation Strategy
 - Provide Final 2024 Annual Report
 - Documents:
 - > Final 2024 Annual Report
 - > Final Working Memo #10
 - Draft Implementation Strategy

- ➤ March 26, 2025: CAMP4W Task Force
 - Review Climate Adaptation Master Plan Implementation Strategy
 - Documents:
 - Draft Implementation Strategy
- ➤ April 13/14, 2025: FAM and Board
 - Seek Board Approval of Climate
 Adaptation Master Plan
 Implementation Strategy
 - Documents:
 - Final Implementation Strategy

Integrating Climate Adaptation (Working Memo #7)

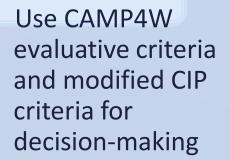

Project and Program Development

Incorporate adaptation considerations in planning processes, project development,

studies, etc.

Project and Program Evaluation

Implementation

Incorporate climate adaptation and sustainability measures into programs, operations, project design, and construction

Working Memo #7

Integrating Climate Change Adaptation into Metropolitan's Planning Processes

Specific Actions to Integrate Climate Adaptation

1) Planning Phase:

- a. Incorporate CAMP4W priorities, as reflected in the CAMP4W evaluative criteria, in updates to Metropolitan plans, guidelines, standards, and reports.
- b. Add language to Requests for Proposals, if applicable, and project scoping documents to reflect climate adaptation priorities.
- c. Update data sets, assessments, and analyses to reflect real-world conditions (as reported through Signposts) and the best available climate science.

2) Evaluation Phase:

- a. Evaluate projects and programs meeting the CAMP4W threshold utilizing CAMP4W evaluative criteria.
- b. Modify CIP evaluative criteria to reflect CAMP4W priorities and utilize for all projects being evaluated.

3) Deliberation Phase:

- a. Support Board deliberation at each iteration with best available information.
- b. Prepare CAMP4W briefing sheets for Board actions.

4) Implementation Phase:

 a. Develop project and program implementation documents (specifications, provisions, plans, etc.) to advance CAMP4W priorities.

CAMP4W Implementation Strategy (Draft Feb. 2025)

Working Outline

- Purpose and Need
 - a. Problem Statement
 - b. Climate Risks and Vulnerabilities
 - c. Regional Needs Assessment
- I. Time-Bound Targets
 - a. Resource-based and Policy-based
 - b. Near term and Long term
- III. Policy Framework
 - a. Climate Adaptation Policy Objectives
- IV. Adaptation Strategies
 - a. Project and Program Development
 - b. Policies, Initiatives and Partnerships
- V. Climate Decision Making Framework
 - a. Evaluative Criteria and Comprehensive Assessment
- VI. Integration and Implementation Processes
- VII. Adaptive Management/Monitoring and Reporting VIII. Public Engagement and Transparency
