SUPPORT Based upon 2025 Legislative Priorities and Principles, adopted December 2024.	This innovative program addresses the needs of threatened and endangered species and provides reliability for water deliveries and hydropower production. The bill will allow the Bureau of Reclamation to hold the non-federal funds for the LCR MSCP in an interest-bearing account. The interest collected will be reinvested in LCR MSCP projects, contributing to the continued success of this program and helping offset the impact of inflation.
