Management Announcements and Highlights

Item 7a

April 8, 2024

Engineering Services

Allen-McColloch Pipeline Urgent Rehabilitation Stage 1 North of OC-88

- Pipe fabricated & being delivered
- Preparatory site work completed
- Shutdown underway

72-inch-diameter pipe delivery to project site

Access Site Excavation

Allen-McColloch Pipeline Urgent Rehabilitation Stage 2 South of OC-88

- Pipe fabrication underway
- Specifications issued for competitive bids in March
- Board action to award a construction contract planned for May

Pipe Fabrication

Water System Operations

Managing State Water Project Supplies

Current Operational Conditions

Phillips Station April 2, 2024
Snow 113% of Average

April 8, 2024

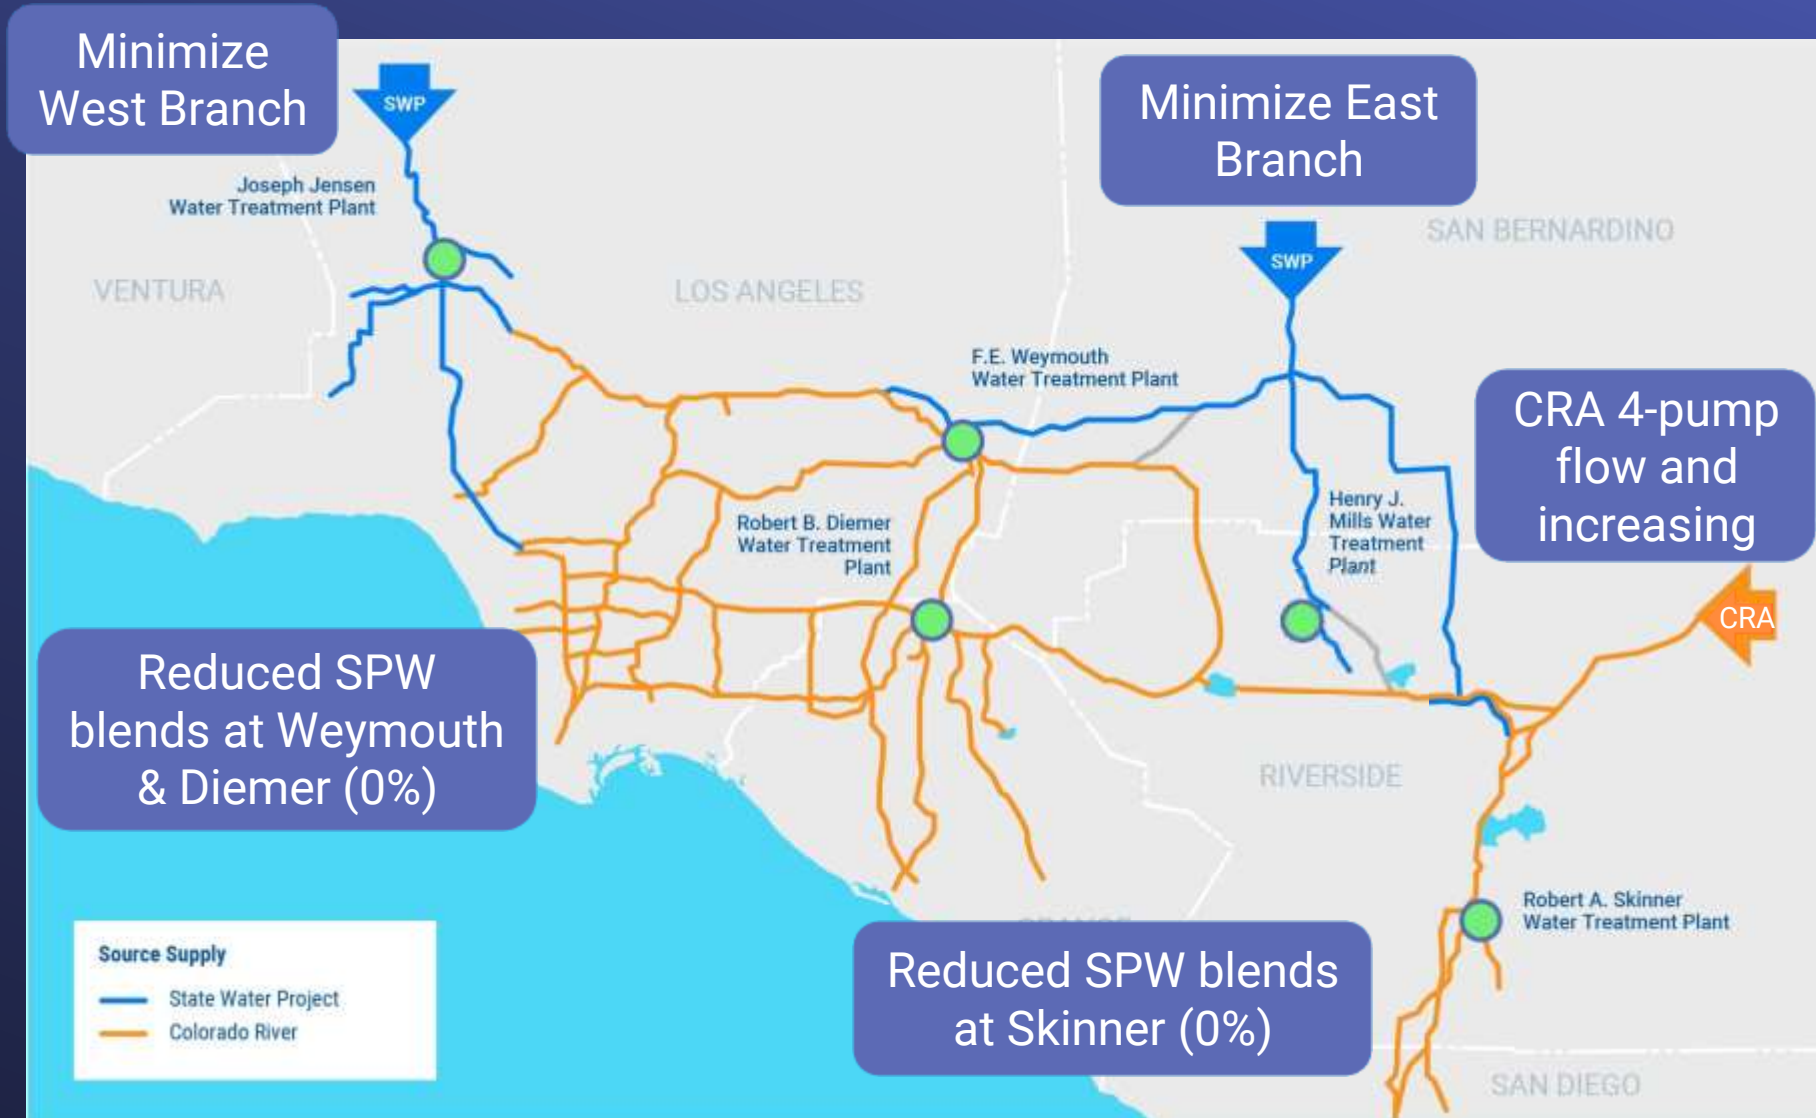

- 2024 SWP Allocation at 30%
- CRA currently at 4-pump flow following CRA shutdown; increasing to 7-pump flow in April
- Deliveries to DWCV currently at 50 cfs
- SWP blend targets are 0% at Weymouth, Diemer, and Skinner to preserve SWP supplies
- March 2024 deliveries of 78 TAF were 16 TAF higher than March 2023

Minimizing State Water Project Supplies

April 2024
Operations

*Minimizing SWP supplies
to preserve supplies for
SWP Dependent Areas*

*Increasing CRA pump flow
following shutdown*

Sepulveda Feeder

Rehabilitate PCCP via
carbon fiber relining
Underway

Ensuring Continued System Reliability

Orange County Feeder

Decommission OC Reservoir
and Inspect PCCP
Recently Completed

**Second
Lower Feeder**
Rehabilitate PCCP
Underway

**West Valley
Feeder No. 1**
Support LADWP's
valve replacement
April 15 – 22, 2024

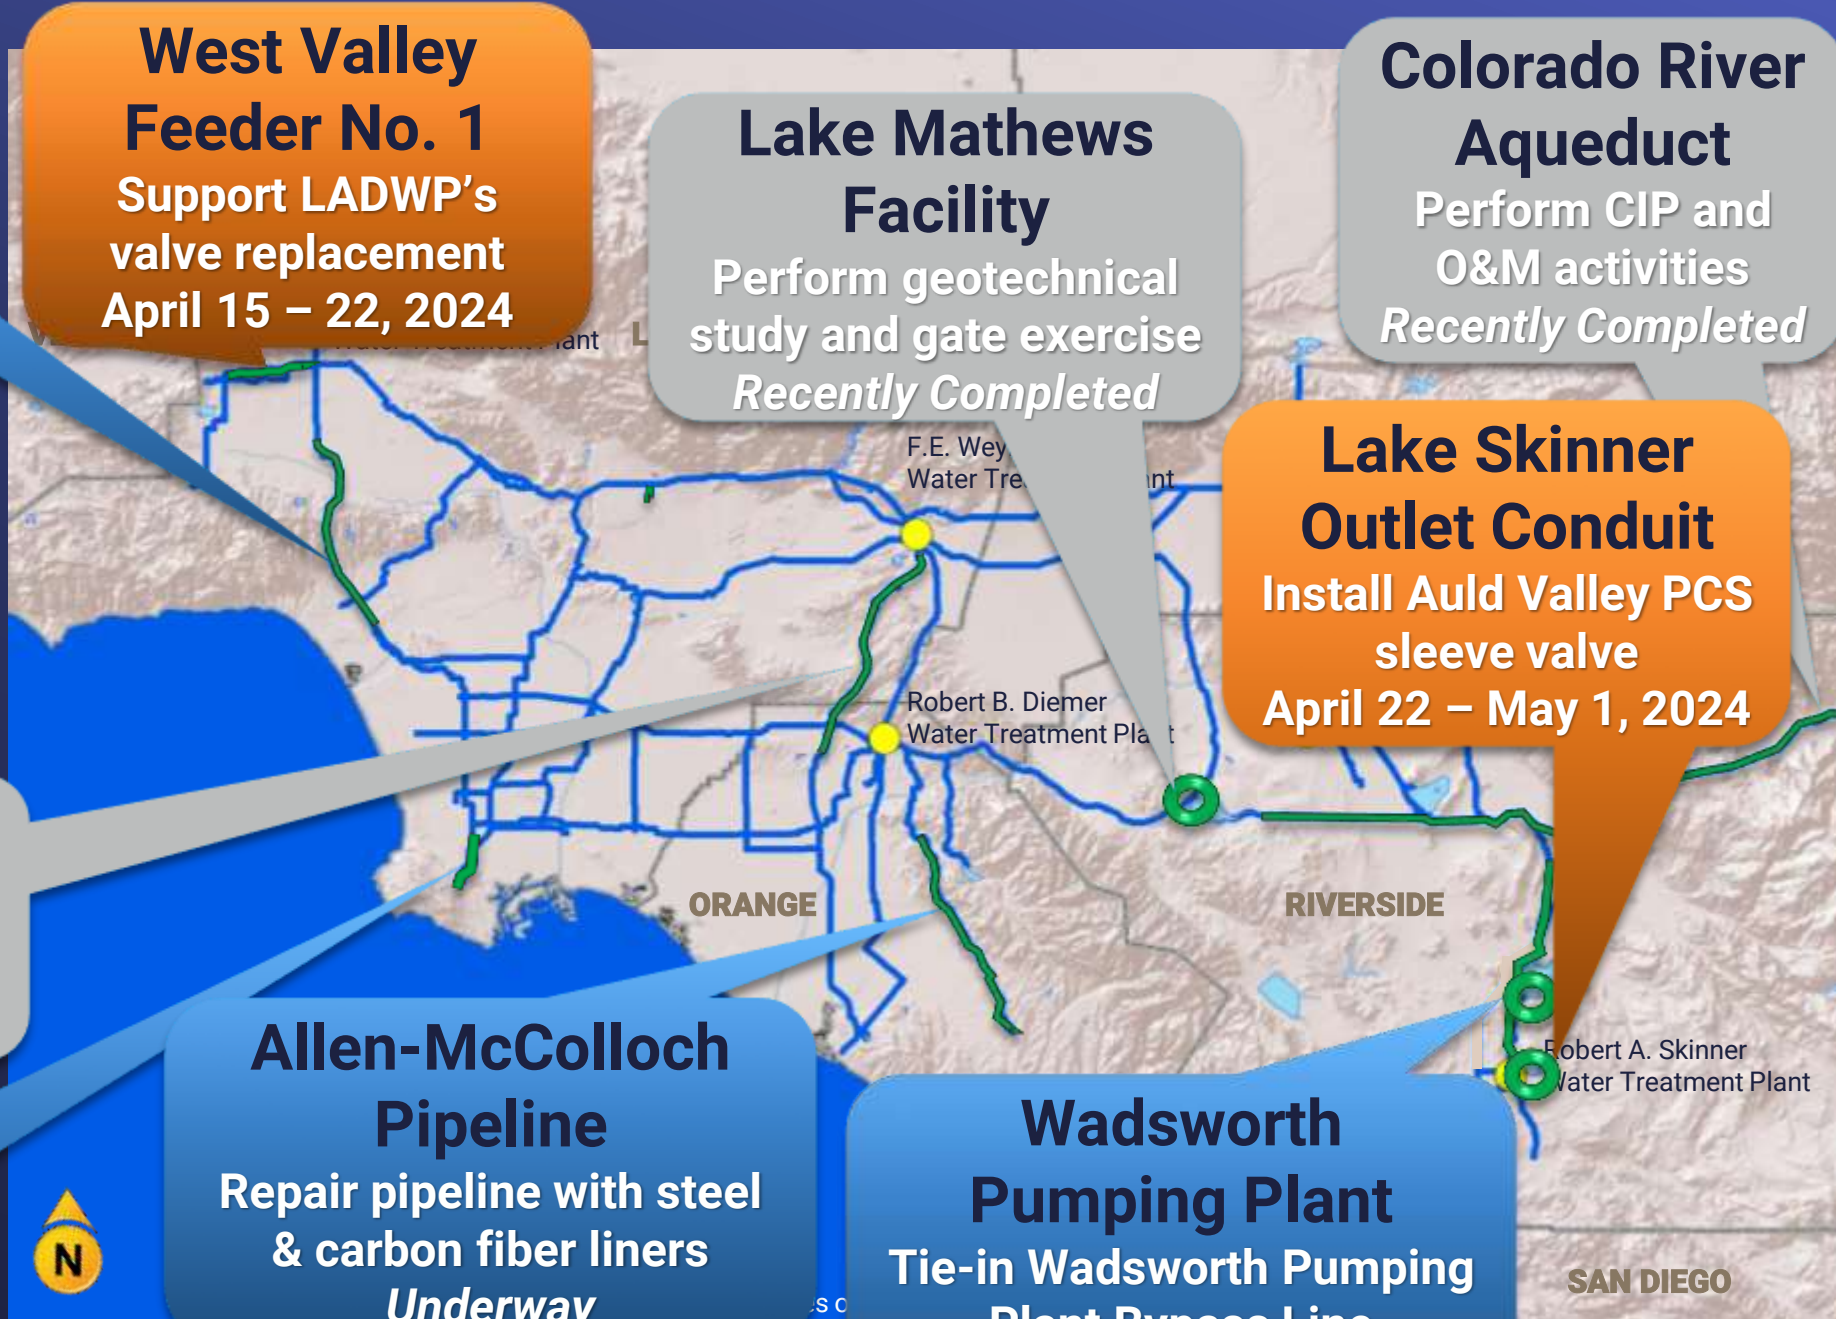

**Lake Mathews
Facility**
Perform geotechnical
study and gate exercise
Recently Completed

**Colorado River
Aqueduct**
Perform CIP and
O&M activities
Recently Completed

**Lake Skinner
Outlet Conduit**
Install Auld Valley PCS
sleeve valve
April 22 – May 1, 2024

**Allen-McColloch
Pipeline**
Repair pipeline with steel
& carbon fiber liners
Underway

**Wadsworth
Pumping Plant**
Tie-in Wadsworth Pumping
Plant Bypass Line
