

THE METROPOLITAN WATER DISTRICT  
OF SOUTHERN CALIFORNIA

# Board Report

## Information Technology Group

### • Information Technology Group Monthly Activities for October 2024

#### Summary

---

This report provides a summary of activities related to the Information Technology Group for October 2024.

#### Purpose

---

Informational

#### Detailed Report

---

In support of the successful valve test at Gene Wash Reservoir, Metropolitan's Information Technology staff devised a plan to share a live video feed because of the restricted conditions permitting only two employees in the test area. The Engineering staff wanted to observe the vibration caused by opening the valve to 10 percent and then to 60 percent. IT staff set up a fixed video stream and successfully broadcasted the valve test to 18 engineers at various locations across Metropolitan.

This [video link](#) shows the valve open to 60 percent.
