

Legislation, Regulatory Affairs, and Communications Committee

Subcommittee on Public Affairs Engagement

Item 2a

January 24, 2023

Subcommittee on Public Affairs Engagement

Included in Board
Letter 8-2 approved
December 13, 2022

Reports to Legislative, Regulatory Affairs and Communications Committee

Focus on devising strategies encouraging public confidence in safe drinking water, and public education to support progress for Climate Action programs and projects related to water supply and stewardship through the substantive engagement of key experts, decision makers around the state and region, diverse interested parties, industry groups, agriculture, and potential partners throughout the West
