Item 7a Annual Audit Risk Assessment & Internal Control Discussion

Subject

Annual Audit Risk Assessment & Internal Control Discussion

Purpose

1. Explain how the Office of the General Auditor creates the annual risk-based internal audit plan
2. Provide an overview of internal control
3. Share information on current risk data and facilitate a Board discussion of risks and internal control concerns

Next Steps

Audit Committee approval and Board approval of the General Auditor Business Plan for Fiscal Year 2025/26 on June 10, 2025

Creating the Risk-Based Internal Audit Plan

Creating the Risk-Based Internal Audit Plan

Administrative Code

6451(d)(1) Audit Department Charter: Responsibilities

Develop and present a flexible annual audit plan to the Audit Committee for review and approval. This plan should be developed utilizing a risk-based methodology and should include risks or internal control concerns identified by Management or the Board of Directors.

Creating the Risk-Based Internal Audit Plan

Introduction

Global Internal Audit Standard 9.4

The chief audit executive must create an internal audit plan that supports the achievement of the organization's objectives.

Requirements

- Consider the internal mandate
- Specify internal audit services that support Metropolitan
- Consider coverage of high-risk areas
- Identify resource requirements
- Be dynamic and timely

Creating the Risk-Based Internal Audit Plan

Process Overview

1. Understand the organization
2. Identify, assess, and prioritize risks
3. Estimate resources & identify engagements
4. Prepare the audit plan
5. Propose, finalize, and present audit plan for Board approval
6. Execute audit plan

Creating the Risk-Based Internal Audit Plan

Understand the Organization

- Identify objectives, strategies, structure
- Review key documents
- Update audit universe
- Facilitate annual audit risk assessment & internal control discussion with the Board
- Hold management meetings
- Obtain internal audit staff input

Creating the Risk-Based Internal Audit Plan

Identify, Assess, and Prioritize Risks

- Understand the significance of independent assessment
- Identify business objectives, strategies, and risks
- Document risks
- Select risk assessment method
- Measure risks
- Score auditable units
- Validate risk assessment

Creating the Risk-Based Internal Audit Plan

Measure Risks

- Auditable unit
- Impact factors
 - Loss exposure – financial, reputational
 - Strategic risk – political, legal
- Likelihood factors
 - Control environment
 - Complexity
 - Assurance coverage
 - Board management concern
- Velocity

Creating the Risk-Based Internal Audit Plan

Score Auditable Units

- Risk factor weights
- Preliminary risk score
- Review 1
- Executive management review
- Review 2
- Final risk score
- Auditable unit ranking

Creating the Risk-Based Internal Audit Plan

Additional Planning Considerations

- Board and management requests
- Mandated audits (law or regulation)
- Mission-critical audits
- Coverage of risks by assurance providers
- Advisory or ad hoc requests
- Administrative activities
- Special projects or initiatives to improve internal audit
- Non-audit activities

Creating the Risk-Based Internal Audit Plan

Estimate Resources & Identify Engagements

- Assess internal audit staff knowledge, skills, abilities
- Coordinate coverage with other assurance providers
- Calculate available plan hours
- Prepare service portfolio
- Identify planned audits and advisory engagements
- Ascertain any additional skills required
- Determine any audit coverage limitations

Creating the Risk-Based Internal Audit Plan

Prepare the Audit Plan

- Executive summary
- Department overview
- Strategic goals
- Risk assessment process
- Risk assessment summary
- Service portfolio
- Planned audit and advisory engagements
- Risk coverage map
- Resource plan
- Organization chart
- Standards

Creating the Risk-Based Internal Audit Plan

Propose , Finalize, and Present Audit Plan for Board Approval

- Share audit plan with department heads
- Present the audit plan to the Audit Committee for approval
- Obtain board approval of audit plan
- Distribute the audit plan

Creating the
Risk-Based
Internal Audit
Plan

Questions?

Internal Control

Internal Control

Administrative Code 2416(b)(4) Executive Committee: Duties & Functions

Consider the effectiveness of the District's internal control system, including information technology security and control.

Internal Control

What is Internal Control?

A process, effected by the entity's Board of Directors, management, and other personnel designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance.

SOURCE: COSO, May 2013

Internal Control

What is COSO Internal Control-Integrated Framework

- Released by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 1992 and updated in 2013
- Recognized as a leading framework for designing, implementing, and conducting internal control and assessing the effectiveness of internal control
- Future initiative for Metropolitan to adopt COSO

Internal Control

Components of COSO Internal Control-Integrated Framework

- Control Environment
- Risk Assessment
- Control Activities
- Information & Communication
- Monitoring

Internal Control

Component Examples

- **Control Environment** - Management establishes standards of conduct
- **Risk Assessment** - Management identifies, analyzes, and responds to risks related to achieving defined objectives
- **Control Activities** - Management segregates duties and responsibilities among different people to reduce risk of error, misuse, or fraud
- **Information & Communication** - Management communicates quality information throughout the entity using established reporting lines
- **Monitoring** - Management performs ongoing monitoring of the internal control system including regular management and supervisory activities, comparisons, and reconciliations

Internal Control

Control Environment

The foundation for the district's internal control system has five principles:

1. The Board and management demonstrate commitment to integrity and ethical values
2. The Board oversees the district's internal control system
3. Management establishes structure, responsibility, and authority
4. Management demonstrates commitment to employee competence
5. Management enforces accountability

Internal Control

Internal Control System Roles

EVERYONE has a responsibility for internal control:

- Board of Directors
- Management
- Staff

Internal Control

Organizational Objectives Categories

- Operations
- Reporting
- Compliance
- Safeguarding of assets

Questions?

Risk Discussion

Definition of Risk

What is a Risk?

- The possibility of an event occurring that will impact objectives
- Positive (opportunity) or negative
- Risk is generally measured in terms of:
 - Impact or consequence
 - Likelihood or probability
 - Velocity

Risk Considerations

Digital Disruption

Defined as the risks and opportunities presented to an organization from emerging technologies, such as AI

Risk considerations for the impact of digital disruptions:

- Risk projected to rise from 4th to 2nd highest risk in 3 years globally
- Ranked in the top 5 risks by 48% of audit leaders in North America – expected to reach 70% in 3 years
- AI-driven risks impact areas such as cybersecurity, human capital, fraud, communications, and reputation
- Challenges include upskilling staff, adopting new tools, and global disparities in access to knowledge

SOURCE: IIA Risk in Focus 2025

Risk Considerations

Climate Change

Risk considerations for the impact of climate change

- Currently ranked relatively low
- Expected to rise from 13th to 5th highest risk in 3 years
- Sustainability reporting and compliance requirements are key drivers
- May cause supply chain disruptions, higher operational costs, flooding, and more
- Challenges include accurate reporting of sustainability initiatives and avoidance of reputational damage
